

Wal-Mac Rankings 2023 - 2024

This report is a guideline, Players are expected to know their levels. Player history is available on Compusport.

Teams are allowed to have one drop down player on their roster.

All players have the option of competing in a higher division than they are listed.

It is very difficult to foresee every possible situation that can arise. Therefore, any player who hasn't played in Wal-Mac may be ranked in a higher division at the discretion of the League Coordinator.

These lists are not all-inclusive as the League Coordinator retains final discretion, in all cases, in placement of individuals and teams in the various divisions. Also, those wishing to voluntarily move up to a higher division are welcome.

After an individual has been moved up to a higher division, they may after 2 years have the opportunity of returning to the next lower division (see notes below).

1. MUT Splay at least 2 years at the highest level you achieved. You ONLY get released if you play after you win your trip. NO EXCEPTIONS (exception note 4).

2. MUST meet statistic requirements as set out by drop down committee.

3. A player that has been released and subsequently wins again MUST wait a minimum of 3 years before requesting another drop down

4. Elite Players who do not win a trip are automatically dropped to Open.

It is the players responsibility to enter themselves into the appropriate division. If a player plays on team at a lower level (unless as the only drop down player on the team) then any games played will be scored as 10-0.

If you win a trip by winning a Division any player on the roster that has 8 or more weeks of play shall move up to the next level.

If a team wins a wild card any player on the roster at the tournament shall be moved up to the next level REGARDLESS of whether or not they play at the year-end tournament.
